Lesson 1

The Qal Imperative Form
The Vocative

Study Notes
To master the Hebrew verb one must know its five forms: prefix, affix, participle, infinitive and imperative. It is most often the case that there is a relationship between the imperative and prefix forms of the verb. Look for this as you learn about this form.

Section 18.4 makes a judgement that our verse is important. That is based on the theological and liturgical use of the selection in classical Judaism. The supplementary reading deals with this issue.

The Pi`el Imperative
The Possessive Suffix (form with pause, without pause)

Study Notes
The combination of imperative form with the piel stem is common. Commands are often intensive. The form is easy to recognize. Learn its characteristics.

The Irregular Verb LQH

Study Notes
This unit presents one of the most common irregular verbs. Also look carefully at the irregular noun in 21.3a and the demonstrative adjective in 21.3b. It pays to master these because they are frequent words in biblical passages.

Lesson 3

Feminine Noun Endings
The Relative Particle '5R

Study Notes
Theory and reality part company in 22.4a. The plural for year, š’nh, is š'nym and not š’nit. So the construct is š’ny. But as an abstract example the brief chart makes a point. Simply ignore it for future reference or you will surely become confused.

Pay special attention to the relative particle. The ability to translate little words makes all the difference between intelligibility and obscurity. Look closely at the example in 22.8a and at the summary in 22.9. Learn this well.

The Definite Direct Object Marker 'T and its Pronomial Suffixes

Study Notes
The constructions of the DDO combined with a pronoun that are set forth in 23.2b are crucial to your mastery of the basic syntax needed for smooth translation. On the other hand, 23.2c is an advanced concept about the absence of a mappiq that occurs infrequently. Go back to page 65 to review the first appearance of the mappiq in our textbook and the explanation of its usage.

The Noun

Study Notes
This is a broad subject. The textbook helps you master the noun by providing rules for seven groups of nouns, noun patterns or associative principles. If you master this unit now, your path will be smoother the rest of the way through the course. You may wish to establish your own mnemonic devices for remembering elements of the noun: gender, family relationships and suffixes.

Assignment: Read and study pages 116-120 in the textbook.

Lesson 4: Send in the exercises and assignments from lessons 24 and "the noun" in the textbook.
Lesson 5

Qal Infinitive Variations
The Qal Infinitive Construct

Study Notes
We learn more of the basics of the infinitive form: regular patterns, hollow verb forms and irregulars. The infinitive is normally easy to identify and to translate. The *qal* infinitive is simple. Be thankful for that.

Qal 3rd Heh Verbs

Study Notes
As you now progress in the study of the verb, you will find numerous irregular verbs. The several common verbs listed in 26.5a share the same pattern. When two irregularities appear together, as is the case when weak and gutteral letters appear in the foot, the complexity of the verb is compounded. Careful work on this paradigm will pay big dividends later.

Hollow Verbs

Study Notes
Hollow verbs in the qal affix look like imperative forms. Look closely at section 27.4b to find the error in the book. Yes. Even a textbook can be wrong. Now look in your dictionary for the three verbs in 27.4c. Which one does not appear to be a real verb?

The Affix of the Hif’il-Causative
The Interrogative Heh

Study Notes
Each time you come to a new stem make some notes about its characteristic features. The Hif’il is relatively easy to recognize and analyze.

Note well the various uses of the letter heh as a particle indicating a question when placed at the beginning of a word. The book emphasizes these here to help you differentiate them from the hif’il indicators.

Lesson 7

The Hif’il Hollow Affix

Study Notes
The exercise at 29.6 reinforces the distinctions among words that start with a ḥeh. The next lesson carries you further into the causative world of the hif’il stem. Section 30.2 reminds us to review our rules for the dagesh. Remember to consult your index if you forget where you have seen a feature of grammar earlier in the textbook. The cross reference to 17.3b should be checked. Do not skip over these signposts.

Lesson 8

The Hif`il Infinitive

Study Notes
The unit introduces the piel participle. It is not immediately germane to the elements of grammar on our main agenda. Nevertheless the piel participle is a common form. Make special note of it.

The hif`il infinitive will be important here in the interpretation of many biblical phrases. It is a major feature of later classical Hebrew in rabbinic texts as well. We will come to this at the end of Hebrew 1106, the third course in this sequence.

The Hif`il Prefix

Study Notes
Vowels make it possible to identify the Hif`il prefix form. Stop a moment to think what it would be like to try to read and translate unvocalized texts. How would you recognize a Hif`il prefix without the vowels? Even with vowels there is some confusion. See 32.3b. Context will help you guess the correct stem. Always look up the context of the sentences you are reading and translating. This will enable you to broaden your knowledge of the substance and meaning of the texts. Classical Hebrew is laden with rules and structural patterns. Nevertheless, nothing surpasses a broad base of knowledge of the substance and content of the biblical text as a tool for analysis and exegesis.

Lesson 10

Advanced Verb Forms: Infinitives and Hif`il

Study Notes

After mastering the basics we move on to alternate forms of the infinitive. We must adjust to translating these verbs into an idiomatic English. If we fail to do so we are left with nonsense phrases. So even after analyzing each word we must go through yet another stage to render the meaning of our phrases into proper English. This unit tests your skills of more complex translation.

Compound Prepositional Phrases
Vav and Yod as Consonants

Study Notes
The uses of the vav or yod (lesson 37) as a consonant or vowel letter are "small" issues. But it is worth knowing them to make the process of translation and analysis go more smoothly. Similarly, demonstrative adjectives are not a big thing until you misrepresent their meaning. Master the little things and much more will fall into place.
